Build a bridge along the years,
Build a bridge from heart to heart
Pupils and teachers are never apart,
Here all of us grow,
In a world we want to know
Learning how to love and live,
Learning how to take and give
Learning how to make our dreams come true

B. School Disciplinary Policy and Procedures:

1. Tardiness Policy

To ensure proper punctuality along with proper supervision, students **MUST** follow the given scheduled time on the mentioned days:

We believe that our students must come to school in a good physical condition (either treated or on treatment of any previous medical problem). Our role is basically concerned with emergency cases that escalate at school; providing first aid support.

Note: fill the student's medical data form sent by mail at the beginning of the year or any medical updates through the school year.

Clinic policy

- When the student complains in the class, he will either receive his first aid through his floor attendant in case of mild traumas or mild skin scratches or he /she will be sent to the school clinic.

To ensure a **safe and secure environment** inside school premises; drills will be held throughout the year to familiarize students and staff members with necessary procedures. Teachers will give specific instructions to students throughout the year. Students should know and follow these rules:

- Upon hearing the alarm, students will proceed in a single line quietly under the direct supervision of the teacher.

them to their teachers electronically hardcopy or electronically as per requested.

2. E-Learning Policy

Introduction in today's changing world, students need to leave school with a set of technological skills that can help them succeed in life beyond schooling. At ELS we make sure that our students are exposed to digital applications starting young age. E-Learning applications and platforms are used as a tool of communication to bring teachers, students, and parents together as well as distance learning when needed. E-Learning helps ELS instantly communicate and engage with all families and students, so we can keep building relationships during regular school days and during times when schools work remotely.

2.1 Digital tools of communication during E-Learning

As mentioned in ELS communication policy; ☒

- The school use email and unified digital platforms (Google Classroom) to send direct messages to families and share announcements for student's learning purposes.
- All communications must be objective, constructive, relevant and professional.
- Students' academic and behavioral information are confidential and should not be shared by any informal means.

Distance learning phases:

1. Distance learning **Induction phase:**

- Teachers can use various tools to send presentations or go virtual on digital meeting platforms.
- Clear instructions along with the learning objectives will be given with each and every presentation.
- Concept-Check questions will be embedded in all presentations. - Students should save & download all presentations and resources to watch later if needed.
- Virtual class (Zoom link) might be included in the presentation and sent to students ahead through Google Classroom where all school rules and regulations apply. Attendance is recorded.

2. Distance learning **Practice Phase:**

- Various types of practice are used after each induction step to assess student's progress.
- All practice assignments should have a clear due date and time.
- Student's performance should be recorded and monitored by teachers and leaders to put the action plan.
- Students can ask questions and send inquires to teachers through the digital tools agreed upon (Google Classroom).

3. Distance Learning **Assessment Phase:**

Assessment is an important parameter for making distance learning implementation successful. We can still refer to the regular organization policy for assessment that provides clear guidelines for the school's approach to formative and summative

assessment.

2.2 Students code of conduct in case of using Zoom Sessions

Students will be oriented to the zoom rules and code of the ethics by teachers during student orientation.

Behavioral grades are recorded by the teachers for every Zoom session following the school rubrics.

Students will lose grades when violating any of the rules.

Disruptions to a Zoom session and/or repeated violations will be reported and may lead to suspensions from Zoom class sessions.

Don't forget to create a formal E-mail

First name. Father's name. Family name. **Last 4 numbers** of the student “ID” @gmail.com

Ex.: mohamed.tarek.elkashef.3642@gmail.com

3. Exam Rules

Exams help to bring an improvement in the individual's knowledge by providing regular feedback to the students who acknowledge their short comings and work on them. Another **advantage** is that **exams** promote competition among students. They work harder to improve their knowledge and skills. Thus; it's recommended to abide by school rules to guarantee calm and stress-free hours while taking exams as follows:

- **Bus** students are to be on time for busses in the morning; as bus leaves in case of delay.
- **Gate** students are to be at school on time; as no extra time will be given in case of tardiness.
- Students are to enter their assigned classroom with only needed tools for exam. No one is allowed to share materials during the exam. (No food/No drinks/No music devices/No mobiles...)
- Students sit in their assigned seats.
- Once the assessment begins there is **NO TALKING!**
- Make sure you write your data as shown on the desk slip correctly and accurately.
- Make sure you **read** the instructions on the cover page.
- **Count** and **revise** the exam pages.
- **Cheating Cases**
Cheating is defined as talking, looking anywhere but at your own paper, being caught with any resource as reference; including mobile telephones, or any other disruptive behavior.
 - Anyone who is caught cheating; receives a (ZERO) on the assessment, parents are notified and a conference is requested.
 - **If a student causes noise or is suspected cheating during exams' time, the following occurs:**
 - **Step 1:** Verbal Warning.
 - **Step 2:** Notify the floor leader.
 - **Step 3:** remove paper for five minutes.
 - **Step 4:** student may not be allowed to finish his exam inside his proctor, Parents will be notified
- No student will be allowed to leave proctor room during the assessment (No bathroom or drink runs), except after floor leaders' approval.
- If you have a question raise your hand and wait for the proctor to communicate in a low voice.

Abide by all school rules during exam periods.

Violating school rules during exams will lead to

- a) Obliging the student to wear the school uniform; on the last day of exams.
- b) Detention on the last day of exams.

4. Grading System and Reports

Reporting student progress to parents is an important part of the educational process. Providing information about the strengths and challenges of learners, helps educators and parents focus on ways to support learning at school and at home.

- Give objective rating of students' progress and achievement levels according to specifications set by **the Egyptian Ministry of Education**.
- Help parents to keep track of their son's / daughter's level.
- Assist parents to be aligned with school staff members to get efficient support if needed at the appropriate time.

Parents are responsible for following school calendar for regular dates of Report distribution, Revisions and Signature of exam papers.

5. Academic Support

The school offers the academic support through **two** main channels; legalized by school policy and notified to parents; as follows:

- Office Hours

Office hours are scheduled hours during break time; through the school administration; offering supportive hours for providing assistance to students in order to enhance their learning experience and help them to fulfill their academic potential.

- Care Classes (Prep Stage only)

Care classes is a paid service offered on Saturdays or after school hours.

6. Rewarding System

Rewarding system is an effective way in which we can celebrate student achievements and positive student behavior; based on upholding ELS Rules.

ELSians are appreciated for their academic progress levels; as well as their interpersonal skills and personal traits throughout the year in different occasions.

Every success story helps students become more self-confident. They are proud and also encouraged to achieve another successful result.

N.B. Any student who is exposed to any kind of suspension or severe penalty; is consequently DEPRIVED from this HONORSHIP JOURNEY.

E. Home School Communication

Building a positive parent school relationship helps children to get the utmost academic and social benefits. Not surprisingly, research shows that; the more parents and teachers share relative information with each other about a student; the better effective results both reach to; that will eventually help students achieve skills.

Thus, ELS seeks effective means of communication with parents through legalized channels of communication.

1. Channel book

- Channel books are daily registrars that would keep parents aligned with students' daily productive days.
- Students are responsible for recording written assignments in the channel notebook.
- Both teachers and parents use channel notebook as an important home school communication mean; sending urgent messages if needed.
- Parents are asked to check and sign regularly.

2. School Site

School website “ www.els-egypt.com “must be browsed regularly for the following:

- Calendar
- Bulletin for announcement/updates (Parents meetings guide, Trips.....etc.)
- Application forms
- Newsletters
- Activities & Events

3. Facebook Page.

4. E-mails

Visiting emails & regular checking is recommended to keep up with any updates.

5. Parents Meetings

- Meetings are crucial for exploring students' background (academic and behavioral progress levels).
- Regular parent / teacher meetings are arranged to pass updated feedback.
- Parents' meetings dates are fixed on school calendar on school website.

6. Individual counseling

Parents are welcome to pay other needed visits if there is urgency for discussing individual matters, suggestions, inquiries or complaints.

These appointments must be fixed through phone calls or a written note to the school telephone operator or secretary beforehand. This appointment is set in a scheduled log to guarantee satisfying parents' needs or else staff members won't be available.

7. Volunteering

Who are Volunteers?

Volunteers are parents who are ready to share their potential and experiences with students on different levels.

To ensure parents' effective involvement, we **ELS** usually open doors for parents' who are ready to share experiences through their different fields of work; to our students serving our main vision "WE TEACH FOR LIFE"

Parents volunteer fill the required form and contact school administration.

How can volunteers help?

- life coach /guest speaker
- Career orientations and awareness
- judging / sharing in school events

8. PTA (Parents Teachers' Association)

PTA is a clear authorized channel that plays on creating this kind of link that would tighten the bond between administration and family members in a professional way

How is PTA constructed?

- Announcement is made for parents to volunteer in sharing in PTA
- Members sign in on line
- Different sections are announced
- Votes are taken among all parents after introducing themselves
- Final selection is made and names are announced
- Regular meetings take place based on a schedule
