

Primary 3rd to 6th

Mid-Term Exams Preparations

Important: Preparations for Mid-Term Exams

Dear Parents,

As we approach the **mid-term exams**, we want to ensure that our students are well-prepared and supported during this critical time.

Here are some *key points* to help your child prepare effectively:

1. Exam Preparation

- Encourage your child to *review all subjects* and utilize all available resources, including textbooks, notes, copybooks and online materials.
- Mark your calendar with the *exam dates* to keep your child organized.

2. Google Classroom

- Please ensure your child regularly checks Google Classroom for additional *practice materials and model answers* uploaded by teachers. These resources are designed to reinforce their learning.
- It's very important to revise *Trial exams* done by students (1 CW & 1 HW) and make sure they follow all instructions of how to deal with exam paper.
- Find *study guides* for English & 2nd Language all stages and Science (3rd primary) on Google classroom.
- Find Proctor & place number for 4th to 6th primary

3. Teacher Support

- Our teachers are here to *assist with any inquiries or concerns*. Don't hesitate to reach out for guidance or clarification on study materials.

4. Punctuality and Preparedness

- Remind students of the importance of being *punctual on exam days*. They should come prepared with all necessary materials, including their pencil cases.

5. Exam Regulations

- It is crucial to read the exam regulations outlined in the *school handbook*.
- Familiarizing your child with these *rules* will help prevent any issues on exam day.

6. Parent-Teacher Communication

- Stay updated on any changes regarding student *pick-up procedures*. We will communicate any *updates in the exam schedule*.

7. Tips from Teachers

- Encourage your child to follow any *study tips* or advice shared by their teachers or heads of department in copybooks and on Google classroom, as these can greatly enhance their preparation.

We appreciate your support in helping your child succeed during this important period. If you have any questions or need further assistance, please feel free to reach out by an email (primary@els-egypt.com).
